NEW 3M™ Filtek™ Z250 Universal Restorative

From the leader in esthetic dentistry comes a new universal restorative material that breaks the mold – and goes beyond by responding to a wide variety of current needs. Introducing **Filtek Z250 universal restorative**, an exciting addition to 3M's widely recognized line of filling materials.

Once we've had the opportunity to tell you about Filtek Z250 universal restorative, we're certain you'll agree ... 3M Filtek: It's the *only* name you need to know in restorative dentistry.

- Lowest polymerization shrinkage.
- Ideal customer-defined handling.
- Quick, easy, versatile ... a perfect addition to any dental office.
- Building on enhanced esthetics and delivery convenience.
- Used with the 3M™ Single Bond Dental Adhesive System.
